The BaseN MicroAgent in environmental monitoring

Helsinki, February 26th 2008

Panu Alku, Product Specialist

BaseN Introduction

Baseⁿ

BaseN - Insight to the ⁿth degree

Who we are and what we stand for

- Founded in 2001, sole developer of the BaseN Platform
- Offices in Helsinki (HQ), Rotterdam and Atlanta
- Serving numerous large enterprises and network operators
- Very strong enterprise and telecom networking expertise
- BaseN Platform is based on next generation distributed grid technology, continuously developed for over 6 years.

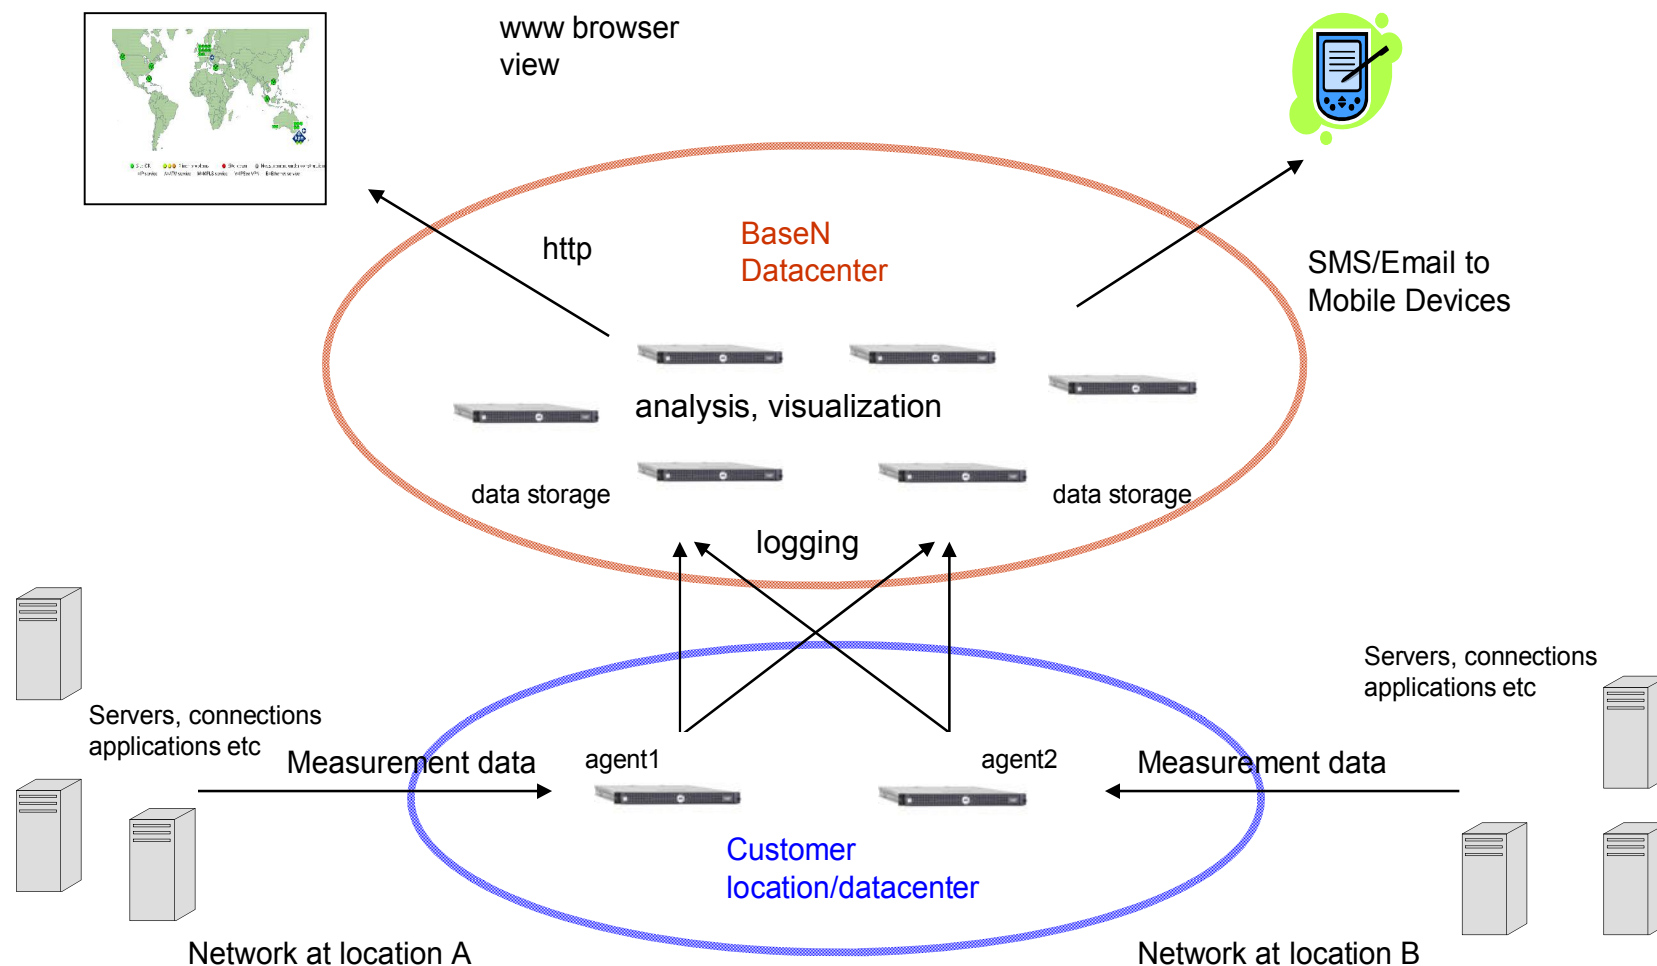

BaseN measures large-scale infrastructures, arranges the data in a relevant context and displays the results in a concise, easily understandable and relevant manner – in real time.
